EAD PROJECT PROPOSAL

Project Title: Open Courseware

Project Description:

Users can get themselves enrolled in various online courses. Students must pass the assignments and quizzes that instructor will upload, in order to pass the course. Video lectures, books and other course material will be available online. User may also download or share the material or order books online. Classroom report will be generated at the end of each course and successful students will be awarded a certificate. Question and Answers Platform will be provided to user. Members can also interact with one another and can also take part in course or news discussions. Monthly newsletter will also be generated. Those who have subscribed to the newsletter will get notified.
